## MODULE 5: Heredity

### Chapter 1: Reproduction

|                          |           |  |    |
|--------------------------|-----------|--|----|
| <input type="checkbox"/> | <b>1</b>  | What is Reproduction?.....                       | 3  |
| <input type="checkbox"/> | <b>2</b>  | Binary Fission in Prokaryotes.....               | 4  |
| <input type="checkbox"/> | <b>3</b>  | Asexual Reproduction in Fungi.....               | 5  |
| <input type="checkbox"/> | <b>4</b>  | Asexual Reproduction in Protists.....            | 7  |
| <input type="checkbox"/> | <b>5</b>  | Fragmentation and Budding in Simple Animals..... | 8  |
| <input type="checkbox"/> | <b>6</b>  | Asexual Reproduction in Plants.....              | 9  |
| <input type="checkbox"/> | <b>7</b>  | Plant Propagation.....                           | 11 |
| <input type="checkbox"/> | <b>8</b>  | Features of Plant Sexual Reproduction.....       | 12 |
| <input type="checkbox"/> | <b>9</b>  | Reproduction in Ferns.....                       | 13 |
| <input type="checkbox"/> | <b>10</b> | Reproduction in Angiosperms.....                 | 14 |
| <input type="checkbox"/> | <b>11</b> | Reproduction in Gymnosperms.....                 | 15 |
| <input type="checkbox"/> | <b>12</b> | Insect Pollination.....                          | 16 |
| <input type="checkbox"/> | <b>13</b> | Wind Pollination.....                            | 18 |
| <input type="checkbox"/> | <b>14</b> | Pollination and Fertilisation.....               | 20 |
| <input type="checkbox"/> | <b>15</b> | Seed Structure and Germination.....              | 22 |
| <input type="checkbox"/> | <b>16</b> | Seed Dispersal.....                              | 24 |

### Chapter 2: Cell Replication

|                          |           |  |    |
|--------------------------|-----------|--|----|
| <input type="checkbox"/> | <b>37</b> | Why Cells Need to Divide.....                          | 54 |
| <input type="checkbox"/> | <b>38</b> | Cell Division.....                                     | 56 |
| <input type="checkbox"/> | <b>39</b> | The Cell Cycle in Eukaryotes.....                      | 58 |
| <input type="checkbox"/> | <b>40</b> | Mitosis and Cytokinesis.....                           | 59 |
| <input type="checkbox"/> | <b>41</b> | Recognising Stages in Mitosis.....                     | 61 |
| <input type="checkbox"/> | <b>42</b> | Modelling Mitosis.....                                 | 62 |
| <input type="checkbox"/> | <b>43</b> | Meiosis.....   | 63 |
| <input type="checkbox"/> | <b>44</b> | Modelling Meiosis.....                                 | 65 |
| <input type="checkbox"/> | <b>45</b> | Nucleotides.....                                       | 67 |
| <input type="checkbox"/> | <b>46</b> | Nucleic Acids.....                                     | 68 |
| <input type="checkbox"/> | <b>47</b> | What Does DNA Look Like?.....                          | 70 |
| <input type="checkbox"/> | <b>48</b> | The Evidence of DNA Structure.....                     | 71 |
| <input type="checkbox"/> | <b>49</b> | Creating a DNA Model.....                              | 72 |
| <input type="checkbox"/> | <b>50</b> | How Does DNA Replicate?.....                           | 75 |
| <input type="checkbox"/> | <b>51</b> | Cell Replication<br>and the Continuity of Species..... | 77 |
| <input type="checkbox"/> | <b>52</b> | Modelling DNA Replication.....                         | 78 |
| <input type="checkbox"/> | <b>53</b> | Chapter Review: Did You Get It?.....                   | 81 |

### Chapter 3: DNA and Polypeptide Synthesis

|                          |           |  |     |
|--------------------------|-----------|--|-----|
| <input type="checkbox"/> | <b>54</b> | Genomes, Genes, and Alleles.....                     | 83  |
| <input type="checkbox"/> | <b>55</b> | Prokaryotic Chromosomes.....                         | 84  |
| <input type="checkbox"/> | <b>56</b> | Plasmid DNA.....                                     | 85  |
| <input type="checkbox"/> | <b>57</b> | Eukaryotic Chromosome Structure.....                 | 86  |
| <input type="checkbox"/> | <b>58</b> | RNA Molecules.....                                   | 88  |
| <input type="checkbox"/> | <b>59</b> | What is Gene Expression?.....                        | 89  |
| <input type="checkbox"/> | <b>60</b> | The Genetic Code.....                                | 91  |
| <input type="checkbox"/> | <b>61</b> | Transcription in Eukaryotes.....                     | 93  |
| <input type="checkbox"/> | <b>62</b> | mRNA Processing in Eukaryotes.....                   | 94  |
| <input type="checkbox"/> | <b>63</b> | Translation.....                                     | 95  |
| <input type="checkbox"/> | <b>64</b> | Applications: Gene Expression Profiles.....          | 97  |
| <input type="checkbox"/> | <b>65</b> | Influences on Phenotype.....                         | 98  |
| <input type="checkbox"/> | <b>66</b> | Mutations can Alter Phenotype.....                   | 99  |
| <input type="checkbox"/> | <b>67</b> | Gene Expression and Environment.....                 | 101 |
| <input type="checkbox"/> | <b>68</b> | Epigenetic Regulation of Gene Expression.....        | 103 |
| <input type="checkbox"/> | <b>69</b> | Genes, Environment,<br>and Continuous Variation..... | 105 |
| <input type="checkbox"/> | <b>70</b> | Amino Acids Make up Proteins.....                    | 108 |
| <input type="checkbox"/> | <b>71</b> | Separating Amino<br>Acids By Chromatography.....     | 109 |
| <input type="checkbox"/> | <b>72</b> | The Hierarchy of Protein Structure.....              | 111 |
| <input type="checkbox"/> | <b>73</b> | Protein Shape is Related to Function.....            | 114 |
| <input type="checkbox"/> | <b>74</b> | Comparing Globular and Fibrous Proteins.....         | 115 |
| <input type="checkbox"/> | <b>75</b> | Protein Functional Diversity.....                    | 117 |
| <input type="checkbox"/> | <b>76</b> | How Are Proteins Modified?.....                      | 120 |
| <input type="checkbox"/> | <b>77</b> | Chapter Review: Did You Get It?.....                 | 121 |

### Chapter 4: Genetic Variation

|                          |           |  |     |
|--------------------------|-----------|--|-----|
| <input type="checkbox"/> | <b>78</b> | Sources of Genetic Variation.....                    | 123 |
| <input type="checkbox"/> | <b>79</b> | Alleles.....   | 125 |
| <input type="checkbox"/> | <b>80</b> | Probability in Genetics.....                         | 126 |
| <input type="checkbox"/> | <b>81</b> | Mendel's Laws of Inheritance.....                    | 128 |
| <input type="checkbox"/> | <b>82</b> | Basic Genetic Crosses.....                           | 129 |
| <input type="checkbox"/> | <b>83</b> | Dominant and<br>Recessive Autosomal Inheritance..... | 130 |
| <input type="checkbox"/> | <b>84</b> | Codominance.....                                     | 131 |
| <input type="checkbox"/> | <b>85</b> | Incomplete Dominance.....                            | 134 |
